## Why start studying in Semester 3

### Stand out from other graduates

Finish your degree sooner than students who are waiting until 2025, and get a head start on your goals.

### Experience smaller class sizes

Experience more one-on-one time with your teachers, and enjoy a more personalised learning experience.

### Live and work in Melbourne

Find a summer job with the help of RMIT's career services, make friends and explore Australia's top city for international students.<sup>3</sup>

## Which courses are being offered?

RMIT offers a select number of in-demand courses for a Semester 3 intake. These include courses in business, project management, science and information technology. Classes start in either September, October or November, depending on the course. Please check the website for details

## Jason Diploma of Business student

I heard about the intake from my friend who was already studying at RMIT. It was timed very well with finishing high school in Indonesia and allowed me to get straight into the course that I wanted to study, with my business knowledge still fresh in my mind... Support from my teachers has been very good. They have a lot of time for us and it feels like they really care.

## How to apply

For more details on preparing your application, visit [rmit.cn/how-to-apply](https://rmit.cn/how-to-apply)

### Step 1
