# A message from the Vice-Chancellor Professor Alec Cameron

RMIT is an international university of technology, design and enterprise. Our mission is to empower people and communities to adapt and thrive across generations, with education, research and civic engagement that are applied, inclusive and impactful.

Our motto since 1887, 'a skilled hand, a cultivated mind', reflects RMIT's commitment to improving the lives and futures of people in a fast-changing society. Applying knowledge with skill, imagination and integrity is at the core of all our work across education, research and civic engagement.

RMIT's presence around the world enables our students and staff to benefit from the exchange of ideas and research across a broad ecosystem. Three substantial campuses in Melbourne are located in the City, Brunswick and Bundoora, along with other Victorian locations. We also have two campuses and a language centre in Vietnam, and a research and industry collaboration centre in Barcelona, Spain. In addition, programs are offered through partners in Singapore, Hong Kong, Sri Lanka and mainland China, with research and industry partnerships on every continent.

We continue to consolidate our reputation as one of the world's leaders in education and applied research. At the heart of this is our ability to graduate highly employable global citizens who are ready to make a positive contribution. Our diverse community of 480,000+ graduates live and work in more than 150 countries around the world. We regularly welcome our alumni back throughout their careers to top-up their skills or change their direction all together, because we know education is lifelong.

Powered by the insight and ingenuity of our people, RMIT will evolve and thrive for the decades to come, working with our students and communities to achieve their goals. I encourage you to take part.

**Professor Alec Cameron**  
Vice-Chancellor and President

# Testimonials

**Yasemin Ozcelik**

I chose RMIT because of their top-ranked media and communication program. I had heard a lot of positive things about it and wanted to experience it myself. It was the best decision of my life.

My time at RMIT was so different than being at home and studying. Everything was bigger and better.

I especially loved the study space at RMIT, there were so many different places to study, both inside and outside when the weather was nice.

I will never forget my time at RMIT.

**Riccardo Petrachi**

For me RMIT has not been simply my exchange destination, just a university, but it became my second home and big family. RMIT has been the perfect choice. It has given me so much experience and joy in a year of exchange more than I expected. I worked for RMIT, I became a social media ambassador, a trip leader and a mentor. My network has doubled and the fantastic balance between studies and social life on campus made my time here one of the happiest in my life.

What else could have I asked for? I will never regret my choice and will never forget this experience. RMIT now feels home.

**Lena Korostylova**

At my home university in Berlin, I gained important theoretical knowledge in electrical engineering. A semester abroad at the RMIT helped me to expand this knowledge and get a broader, international insight into this field. By choosing interdisciplinary courses I was able to learn important skills which contribute to my studies.
